National Workshop
On
Developing Digital Libraries Using DSpace 5.2

February 5th & 6th, 2016

Organized by

University College for Women
Osmania University, Hyderabad
Under Research & Innovative Programmes
Tel : +91-40-24657813
e-mail : principal@oucwkoti.ac.in;
oucwkoti@rediffmail.com
Website: http:// www.oucwkoti.ac.in

University College for Women, Osmania University, Koti, Hyderabad will conduct two days National workshop for library professionals on "Developing Digital Libraries using Dspace 5.2" under the Research & Innovative Programmes of the college. DSpace (http://www.dspace.org/) is the most widely used Open Source Digital Library Management software jointly developed by MIT Libraries and HP labs. The purpose of this workshop is to provide extensive hands on training to library professionals by providing adequate practical knowledge which will enable them to initiate digital library projects and set up their Institutional Repositories on their own by using Dspace.

Dspace:

DSpace is popular software to develop Digital Libraries and setup Institutional Repositories (IR). This IR helps to upload, index and retrieve various forms of digital content - in text, video, audio, and data. It indexes your work, so that end users can search and retrieve digital items over network. It preserves your digital work over long term. Dspace provides a way to manage your research materials and publications in a professionally maintained repository to give them greater visibility and accessibility over time. The latest stable version of DSpace is 5.2. More information about dspace can be found at *www.dspace.org*

- The following topics will be covered:
- Open Source Software (OSS) and their application in Libraries
- Basics of Linux
- Installation of DSpace (v 5.2) and Setting up of Digital library (On Ubuntu 14.04 LTS operating System)
- Dspace Administration and Management
- Dspace Customization
- Import and Export
- Backup and Restoration procedures

Benefits for the participants:

- Creates awareness among LIS professionals about open source technology & its application in library.
- Makes the library professionals technically sound so as to build and maintain their Digital library independently without any support.
- Enables the Library & Information Professionals to face the technological challenges such as installation, uploading and organising documents, backing up, etc.
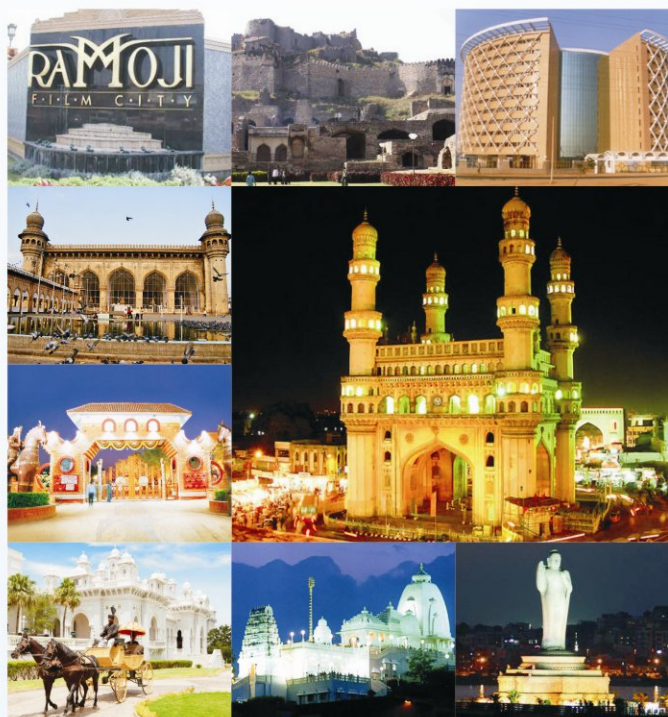

Who should attend?

Library and IT professionals, Students of LIS, Research Scholars, LIS and Computer Science professionals can be attended this workshop. And participant must have the basic knowledge of computer handling (Windows), installation of application software and working with Internet Explorer or any other browser.

About Hyderabad

Hyderabad is the common capital city of the Indian States Telangana & Andhra Pradesh. Greater Hyderabad spread across an area of 625 sq km, has an estimated metropolitan population of 7.75 million, making it the sixth most populous urban agglomeration in India. Popularly known as 'pearl city' with its iconic architectural marvel "Charminar", considered as the crown of deccan and the symbol of Hyderabad built in the 16th century. Techno savvy people call it the "Mecca of Metallurgy" and it enjoys the status of a strategic location with a host of prestigious defense and atomic energy establishments. It is famous for its rich history, cultural heritage and architecture, representing its unique character as a meeting point of North and South India.

Hyderabad is today a major hub for Software Export, Hardware Manufacturing and Biotechnology. This has led the city to be referredas 'Cyberabad'. It is also an important educational centre with major academic, technical and research institutes. It is the financial and economic capital of the state and contributes the highest amount to the state's GDP, Tax and Excise

Revenues. The service industry is a major player in the city, employing 90% of the work force. Above all, it is the Pharma capital of Asia. Hyderabad is also known for Hospitality Industry, Literature & Culture, Food & Cuisine, Entertainment and Fun and much more. This cosmopolitan city has become to be known as an example of "Unity in Diversity", a Center of various cultural influences, home to different communities peacefully living and flourishing together.

Visiting places in Hyderabad

1. Charminar
2. Golconda fort
3. Qutb Shahi Tombs
4. Birla Mandir
5. Salar Jung Museum
6. Nehru Zoological Park
7. Hussainsagar Lake
8. Chilkur Balaji Temple
9. Ramoji Film city
10. Chowmohalla palace
11. Mecca Masjid
12. Shilparamam
13. Falaknuma palace

About College and College Library:

University College for Women, Hyderabad is a constituent college of Osmania University and was established in 1924 with autonomous status since 1988-1989 granted by UGC, the College offers both undergraduate as well as postgraduate courses in the faculties of Arts, Social Sciences, Science, Commerce and Management. UCW has 25 Academic Departments supported by several facilities like Cyber Centre, well equipped Labs, Botanical Garden with a Green House, sprawling Sports Grounds, Placement Cell, and Central Library.

The College has highly qualified faculty who take up quality research and consultancy. UCW, has over the years, developed a healthy and productive interaction with the stakeholders. The campus is spread on a sprawling 42 acre land with a historic monument of great aesthetic and architectural importance of British legacy in India which provides an ambience of grandeur. It is a NAAC grade 'A' accredited institute and recognized as a Centre for Potential Excellence by UGC. The College Library finds a unique place in the academic library scenario in this part of the world. It is an amalgamation of the old and the new. While it is one of the oldest academic libraries in country, it is housed in a state-of-art new building having all latest ICT facilities. The Library contains more than 1 lakh documents in print. Our College library is automated using New Gen Lib Library software with automated issues and return of books to the students. E-learning facility (INFLIBNET) is available for the faculty and students in the University campus.
