

Dr. D Annapurna Padmavathi M.Sc., Ph.D

Assistant Professor of Physical Chemistry

E-mail dapadma@rediffmail.com

Dr Padmavathi completed her M.Sc. in Chemistry from Nizam College, Osmania University and Ph.D from IIT Bombay. She did short post doctoral stints at Emory University, Atlanta, U.S.A., and Institute for molecular science, Okazaki, Japan. She joined the service as Assistant Professor in the year 2007. She has 20 years of teaching and research experience. She published 17 research articles in National and International Journals. Currently 8 research scholars are pursuing for their Ph.D. degree under her guidance. She has three minor research projects funded from UGC-SERO, UGC-UPE-FAR, OU-DST-PURSE. Her research interests are mainly in the area of physical organic chemistry with emphasis on Application of Computational Quantum Chemistry to Real Time Problems.
