

Dr. Ch. Abraham Lincoln M.Sc., Ph.D

Professor of Inorganic Chemistry

Email: chal_lincoln@yahoo.com

Dr.Ch. Abraham Lincoln has 34 years of teaching experience. His area of specialization is bio inorganic chemistry. His research work is on mixed nucleoside complexes of bivalent metal ions in solution. He has been teaching for both under graduate and post graduate students at University College of science Saifabad (O.U). He worked as Head of the department at UCSS and organized national conferences, workshops and seminars. At present he is teaching for postgraduates at university campus and guiding research scholars. His areas of interest in teaching are coordination equilibria, bio-coordination chemistry and reaction mechanism of transition metal complexes. He has published many papers in reputed journals and he has attended number of conferences at national level. He is a member of various academic and professional committees. He is subject expert in interview boards for APPSC and UPSC. He is on the editorial board for the international journals. He is a recipient of National Integration Award, Mother Teresa Award- Health care international USA, INDIA and Rashtriya Gaurav Award- India International friendship society New Delhi. The present ongoing research work is on synthesis characterization of metal complexes and Nano technology. Presently he is also serving as Board of Studies chairman, Forensic science, Osmania University.
