## About Osmania University & Dept. of Genetics

Osmania University is one of the oldest and most prestigious institute of higher learning imparting education to foster a scientific temper and to promote professional and technological expertise. The Department of Genetics was founded in the year 1966 with the vision of Prof O.S. Reddy and has completed 56 years of brilliance. The University become first in the country to start an academic Department exclusively devoted to the discipline of Genetics (MSc & Ph.D.). The Department is also serving as nodal centre for Biotechnology(MSc & Ph.D.) and Bioinformatics (PG Diploma) .

## About Indian Immunology Society (IIS)

The Indian Immunology Society was established in 1972-73 with the aim of expanding and developing the subject of Immunology to fight the major health challenges in India. The International day of Immunology is celebrated on 29<sup>th</sup> April annually as a Global event. It aims to create awareness on importance of Immunological research and improve public understanding of Immunity. This is a unique platform that strives to bridge gap between common man and the field of Immunology.

## About National Seminar

The Department of Genetics & Biotechnology has taken an initiative to conduct a National seminar under the aegis of IIS commemorating the International day of Immunology. Post-Pandemic era is largely influenced by advances in Immunological research. The clinical studies have increased with development of vaccines and specific immunotherapy to treat major health ailments. A raise in awareness about immunological intrications of diseases among public is a current priority.
