

National Seminar on Emerging Perspectives in Education

June 27-28, 2023

Organized by

PMMMNTT

Department of Education
Osmania University
Hyderabad – 500007

About the Organizer

Osmania University

The Osmania University, established in 1918, is the seventh oldest in the country, third oldest in South India and the first to be established in the princely state of Hyderabad.

Department of Education

Osmania University Training College came into existence and started functioning with effect from 31/08/1928. At that time B.T. Degree was awarded after successful completion of the programme. In 1947, the college was shifted to the University campus and was renamed as University College of Education. Under the centrally sponsored scheme, to strengthen and reorganize teacher education, a number of teacher education institutions were upgraded to CTE, and a few into IASE centers of excellence, research and innovations. Accordingly, the University College of Education, Osmania University was upgraded to the status of IASE during the year 1996-97. In 2018 it is again

Chief Patron

Prof. D. Ravinder

Vice-Chancellor, Osmania University

Patron

Prof. P.Laxminarayana

Registrar, Osmania University

Convener:

Dr. P. Shankar

Assistant Professor, UCE, OU
Member, NCTE-SRC,

Co-convener:

Dr. G. Durgesham

Assistant Professor
In-charge Chairman, UEIGB, OU

Organizing Committee

Prof. A. Ramakrishna

Head, Department of Education, O.U.

Prof. T. Mrunalini

Senior Professor. Department of Education, O.U

Prof. Ravindranath K Murthy

Principal, University College of Education, OU

Dr.D. Sunitha

Assistant Professor
Chairperson, Board of Studies in Education

Dr. J. Lalitha

Assistant Professor
Chairperson, Board of Studies in Spl. Education

Dr.B. Sujatha

Assistant Professor

Dr. D. Dharma Teja, Asst Prof (c)

Dr. G. Madhukar, Asst Prof (c)

Dr. J. Krishnaiah, Asst Prof (c)

renamed as University College of Education. Centre for In-service Teacher Education, Department of Lifelong Learning are also located in the same campus. In 2018 the college is accorded with School of Education status by MHRD under PMMMNTT scheme.

About the Seminar:

Education is not the preparation of life; but life itself. Education is considered to be one of the most essential investments that a country can make in its people and its future. Access to education is not only a vital human right, but it also plays a crucial role in the human, social and economic development of a nation. It acts as a key to eliminating gender inequality, reducing poverty, and creating a sustainable planet. Education changes the world for the better (Duncan et al., 2013) India's higher education system is the world's third largest in terms of students, next to China and the United States. In future, India will be one of the largest education hubs.

India's Higher Education sector has witnessed a tremendous increase in the number of Universities /University level Institutions & Colleges since independence. Indian higher education system is growing very fast irrespective of various challenges but there is no reason that these Challenges cannot be overcome. With the help of new-age learning tools, it is easy for country like India to overcome these problems and bring a paradigmshift in the country's higher education sector. The new policy talks of an increase in Gross Domestic Product (GDP) budget allocation towards education. As we are moving into the Fourth Industrial Revolution, domains like artificial intelligence and machine learning are becoming a dominant and significant part of our lives. According to UN estimates, 264 million

children globally are out of school today, and many more children who are in school aren't learning enough, because of the poor conditions for education. In developing countries, the lack of quality education results in missing the opportunity to lift oneself out of poverty. India is currently facing one of the worst educational crises in the world. Over 17.7 million children are out of school. Illiteracy levels are as high as 40% and the foundation to improve these abysmal numbers appear lacking. Classrooms are understaffed.

Present seminar keeping in view the NEP 2020 and various dimensions of education system in India at different levels is planned with the objectives and broad themes to bring out a compendium of ideas to scaffold from various stakeholders and bring out policy recommendations.

Objectives:

1. To design a holistic system of higher education for creating a humane society
2. To explore innovative ideas and practices for transforming the system of education
3. To draw inspiration and ideas from IKS to reimagine knowledge and education
4. To examine emerging digital technologies and their impact on education and society
5. To design strategies for the effective implementation of the National Education Policy 2020.
6. To produce intellectually sound and morally sensitive teachers and teacher educators

Broad themes

1. Sustainable development of education in light of SDG goals
2. Holistic education practices and policies
3. Eco friendly development and activities
4. 21 Century skills and educational reforms
5. Indian knowledge systems and need of exploratory research
6. Challenges of learning crisis and learning poverty
7. Emerging teaching tools and technologies and 4.0 education
8. Vocational and experiential education Entrepreneurial curriculum and innovations in Indian context
9. Reforms in education at different levels for human values
10. Democratic values and citizenship training
11. OARs for different levels of education
12. Digital education and future of India
13. NEP 2020 road map for implementation and overcome challenges.
14. Mentoring process and strategies
