Two Day National Workshop on **Embarking on Digital Frontier : Tools for Enhancing MOOCs Experiences**

Organised by
Educational Multimedia Research Centre
Osmania University, Hyderabad

Sponsored by
Consortium for Educational Communication
New Delhi

Dates: 6th and 7th Feb, 2025

Venue
PGRR Centre for Distance Education
Osmania University, Hyderabad

Chief Patrons
Prof. Kumar Molugaram
Vice-Chancellor
Osmania University
Prof. J.B. Nadda
Director
Consortium for Educational Communication

About Educational Multimedia Research Centre (EMRC), OU

As part of national educational policy and to make available quality educational content to nook and corner of the country, the UGC established Media Centers in various universities in the country. EMRC at OU is one of such centers established in 1984. In accordance with the policies of the government the Media Centers prepare educational content in the form of documentaries, syllabus based video lessons, multimedia programs, etc., for transmission on television and for online education through the Web. EMRC, OU, has been contributing to the educational communication mission of the government and many of its programmes have won national and international awards for their quality.

About Osmania University

Third oldest in south India and seventh oldest in India, Osmania University was established in 1917 by Mir Osman Ali Khan, the then ruler of the princely state of Hyderabad. Located in Hyderabad, Osmania University, stands as a distinguished symbol of academic excellence and architectural grandeur, and has evolved into a hallmark of educational quality over the decades.

Renowned for its academic prowess, Osmania University boasts a rich legacy of producing visionary leaders, scholars, and professionals across diverse fields. Its comprehensive range of undergraduate, postgraduate, and research programs reflect a commitment to fostering intellectual growth and innovation. The university's emphasis on holistic education, coupled with a strong emphasis on research, ensures a nurturing environment that encourages critical thinking and academic exploration.

Osmania University's commitment to academic rigor, coupled with its picturesque campus, continues to attract students, scholars, and academicians from across the globe, contributing to its legacy as a beacon of educational eminence and a testament to the pursuit of knowledge.

About Consortium for Educational Communication (CEC)

The Consortium for Educational Communication (CEC), New Delhi, stands as a pioneering institution dedicated to promoting higher education through electronic media. Established as an inter-university center under the University Grants Commission (UGC) in India, CEC has been instrumental in revolutionizing the dissemination of educational content across the country with the help of 21 EMRC working under it.

CEC operates with the primary objective of enhancing the quality of higher education by producing and broadcasting educational programs through various media platforms. Through its extensive network of universities and educational institutions, CEC facilitates the creation of multimedia content, including video lectures, documentaries, and instructional materials, covering a wide array of academic disciplines. By harnessing technological advancements and employing a collaborative approach, CEC endeavors to reach a diverse audience, including students, educators, and lifelong learners. The organization's initiatives encompass not only traditional broadcast media but also modern digital platforms, ensuring accessibility and inclusivity in education.

Moreover, CEC actively engages in research and development endeavors to adapt to evolving educational paradigms and technological innovations. It strives to incorporate best practices and cutting-edge methodologies to continually improve the quality and relevance of its educational offerings through regularly updating the teaching fraternity.

In essence, the CEC, stands as a beacon of educational advancement, leveraging technology and collaborative efforts to democratize access to quality higher education across India, thereby fostering intellectual growth and academic excellence.

About the Workshop

The "Embarking on the Digital Frontier: Tools for Enhancing MOOCs Experiences", workshop is a two-day workshop designed to equip educators with essential knowledge and skills for success in the digital era. Featuring six engaging sessions, this workshop will cover a variety of critical topics related to technology integration in education. Participants will learn how to master digital assessment techniques, leverage Information and Communication Technology (ICT) in the development of MOOCs content and explore the transformative potential of Artificial Intelligence. Our goal is to empower educators to navigate the ever-evolving educational landscape. Throughout the workshop, educators will receive practical insights and hands-on experiences, enabling them to develop a comprehensive

understanding of the tools and technologies that can enhance teaching and developing MOOC content. Participants will not only deepen their theoretical understanding but also gain practical skills that can be immediately applied in their own educational settings.

Workshop Highlights

- Exploring how artificial intelligence can enhance MOOC content delivery, assessments, and learner engagement.
- Utilizing AI tools to create customized learning experiences for diverse learners.
- Strategies to make MOOCs more inclusive using technology, including language translation and adaptive learning platforms.
- How gamification techniques and interactive content can improve learner motivation and retention.
- Using data analytics to track learner progress, identify challenges, and refine course design.
- Addressing ethical considerations and ensuring data privacy while leveraging technology in MOOC platforms.

Who Can Attend?

- Educators and teachers.
- Educational administrators.
- Curriculum designers.
- Researchers and scholars.
- Anyone passionate about advancing education through technology.

Key Topics

- Enhancing Learning Outcomes with Blended Methodologies.
- The Impact of Digital Education Apps and Tools.
- Artificial Intelligence in Digital Education.
- MOOCs in Changing Scenario of Digital Era.
