#### **About the Company:**

At Verizon India they are proud to foster a culture of learning that keeps our people at the forefront of an ever-changing industry. By joining organization, the aspirant will get an opportunity to pursue their ambitions and drive meaningful change. From 5G and IoT to AI and more, they can work on exciting initiatives across the business and also play a critical role in the development of new technologies, monitor Verizon's business operations, and work on UX initiatives for business and customers. For more information visit [www.verizon.com/story/stories/verizon-india](http://www.verizon.com/story/stories/verizon-india)

Verizon looks out to hire B.Sc and BCA students who shall be passing 2023 year. They are providing potential candidates an opportunity to join organization as an employee and simultaneously be enrolled in a 4 year M. Tech program from BITS Pilani.

#### **A brief overview of the program**

The selection process will be through an Online Assessment test for the eligible and interested candidates facilitated by AON. Once selected and onboarded, the candidate will undergo a training program spanning 1.5 months in programming foundations and Java development skills. On completion they will be ready for deployment in projects. Once they are deployed, they will start the M.Tech Degree program that we have designed in collaboration with BITS Pilani. Through this endeavor, the candidate gets the opportunity of securing a post-graduate degree from a premier institute like BITS Pilani while also gaining hands-on experience and exposure as an employee of a leading technology-driven global capability center, Verizon India

**If the student drops out at any juncture of the M.Tech program, the entire fee paid by Verizon will have to be returned/compensated to Verizon India.**

**Eligibility Criteria: Bachelor's Degree in the field of Computer Science/IT/ Mathematics or a related major with an expected completion date in the year 2023 current percentage 70% and above/ 7 CGPA and above throughout 10<sup>th</sup>, 12<sup>th</sup> & UG with no active backlog.**

**Compensation Offered** CTC - Rs. 4,00,000 per annum

Job Description (in Company's words):

We are looking for bright, talented developers to kick start their career here at Verizon India. This position – which is part of the Verizon India Campus Program – will give you a chance to channel your drive and enthusiasm while learning from the best minds in the industry. You'll be front and center, hands-on and contributing your creative energy to high-impact projects from the moment you arrive throughout your career with Verizon India. You will take part in meaningful work and real-life projects within the organization that will help you grow both professionally and personally throughout the program.

- Designing, developing and implementing software applications/systems.
- Producing system and user documentation during the development of systems.
- Assisting in the day-to-day support and maintenance of software systems.
- Assisting in the implementation and integration of third-party applications.
- Finding opportunities to customer experience

**Skill sets:**

- Strong analytical skills, communication, leadership and presentation skills.
- Ability to work collaboratively in a fast-moving, team environment.
- Proficiency in MS Office Suite of Products (Word, Excel, PowerPoint).
- Familiarity with some of the following technologies and disciplines: Computer programming, Coding, and Project Management.

**Job Location**

Chennai/Hyderabad (Based on business requirement).

**Date and Time of the online test shall be communicated to your email id by the company.**
