

ABOUT THE OSMANIA UNIVERSITY

Osmania University is named after its founder, Nawab Osman Ali Khan, the seventh Nizam of Hyderabad who rather through a Farman or Royal Charter brought the University into existence in 1917. It is the seventh oldest in the Country and third oldest in South India. Though the need for the University for the Hyderabad State was felt, both by the intelligential and the people for a long time, the initiative came from a civil servant, Sir Akbar Hydari, who was then the Home Secretary to the State Government. Sir Hydari, in a memorandum to the Education Minister in Early 1917, emphasized the need to establish a University of Hyderabad with 'Urdu' as the medium of instruction "as it is the language of the widest currency in India, official language of the State, and it is a language which is understood by a vast majority of the population of the State." He believed that higher education must have its foundations deep in national consciousness

MINORITIES CELL, OU

Minorities Cell of the Osmania University was established in 2013 with the purpose of empowering the minority communities in the university. Every student has a right of education by following the fact Osmania University empower the minority community in their curricular and co-curricular activities. The Minorities Cell basically helps Muslims, Sikhs, Christians, Buddhists, Jain and Zorastrians (Parsis) in their academic development, skill development seminars and education talks.

Accommodation

Participants are required to make their travelling arrangements. Prior intimation is required for assistance in booking accommodation in Osmania University Guest House.

ABOUT THE CONFERENCE:

National Education Day is celebrated every year on November 11th to commemorate the birth anniversary of Maulana Abul Kalam Azad, India's first Education Minister. The theme for this year is 'Embracing Innovation' which highlights the importance of innovation and promoting creative and progressive teaching methods. In today's rapidly changing world, it is more important than ever for students to be equipped with the skills and knowledge they need to think critically, solve problems creatively, and adapt to new challenges. Innovation in education can help us to achieve this goal by creating a more engaging and interactive learning environment that encourages students to explore their creativity and develop their problem-solving skills.

Topics:

- Innovation in education
- Digital skills
- Digital technologies in education
- Education and skill dimensions
