Department of Physics

About the Department

When Osmania University was established during 1918-1919 year, Physics was one of the first few science subjects that were introduced. In 1950, Professor SuriBhagavantham, a world renowned Physicist, initiated high quality research work both on theoretical and experimental aspects of Ultrasonic, Radio Astronomy, Cosmic rays and Spectroscopy. From then, the Department has grown enormously in strength and diversity and it has emerged as one of the centres of Excellence in Physics in the Country. The Department has four constituent colleges, out of which three constituent colleges offer both B.Sc. and M.Sc. courses with Physics as the main subject. The over-all intake of the students is about 175. Many of our faculty, research scholars and students have won number of prestigious awards such as Von Humbolt, DAAD, Boyscat, CV Raman, Telangana Science Academy, Best teachers Award (Govt. of Telanagana) etc.

Currently the Department of Physics, OU is offering M. Sc. (Physics & Applied Electronics) with following specializations:

- (a) Material Science (b) Solid State Physics (c) Electronics & Instrumentation (d) Nano Science
- (e) Astrophysics.

M.Sc. (Physics) offering at constituted colleges with following specializations:

- a) Bio-Physics at Nizam College, OU
- b) Electronics & Communication at Nizam College, OU
- c) Condensed Matter Physics at UCS, Saifabad, OU.

Multi-disciplinary Course offered-Post M. Sc. Diploma in Radiological Physics

The Department also has started a Post M. Sc. Diploma in Radiological Physics in collaboration with AERB from the academic year 2009-2010. This will be a multi-disciplinary course involving the expertise from the departments of Physics and Life Sciences, and Hospitals and Medical Research Centres. Several Radiological

Centres in the city, including MNJ Cancer Hospital and Regional Cancer Research Centre, KIMS, Omega Hospitals and Indo-American Cancer Institute have been collaborating with the Department to conduct the course, and to meet the requirements of radiological and nuclear medicine techniques. Further in view of the urgent need of human resources in the concerned areas, the AERB is interested in such a course to be started at OU keeping in mind the availability of subject experts in radiology and nuclear medicine in Hyderabad, to teach the course and for training.

Research activity at the Department of Physics:

The thrust area of the Department is Materials Science and Solid state physics. Following are the areas of research undertaken by various research groups in the Department.

- a) Ferrites and Nano material
- b) CMR Materials
- c) Ion conduction and polymer electrolytes:
- d) Display Materials:
- e) Glasses:
- f) Thin films and gas sensor materials
- g) Solid State Physics and Materials Science for over three decades.

Major Research Infrastructure Developed:

- 1. FTIR Bruker
- 2. UV-Vis Spectrophotometer Shimodzu
- 3. Scanning Electron Microscope (zeiss)
- 4. X-ray Diffractometer (Powder) Xpert Plus
- 5. Differential Scanning Colorimeter (DSC) Netzsch
- 6. Thermo gravimetric Analyzer (TGA)
- 7. Spectrofluorophotometer RF 6
- 9. Atomic Force Microscope (AFM) Shimodzu
- 10. RF Magnetron Sputtering Unit ENI, Pfizer
- 11. High Vacuum and UHV systems (Local)
- 12. Spin Coating Unit (Local)
- 13. High Temperature Vacuum Furnace
- 14. P-E Loop Tracer Marine India
- 15. Magnetic susceptibility

Research conducted

The Department was one of the earliest Departments in the county to promote research activity in the growth and characterization of single crystals. The research activity taken up by the Department on several aspects of crystal characterization, superconductivity, spectroscopy, high energy physics and X-ray diffraction earned national and international recognition. The Department published over 1700 research papers in seventy different national and international journals, having high impact index which led to the award of more than 260 Ph.D.'s from the Department. Department has produced Scientists of National/International calibre who have brought laurels to the Nation and Institution wherever they are.

For promotion of the academic activity and research in the identified thrust area i.e. , Solid State Physics and Materials Science, UGC has been sanctioning funds continuously under SAP. The Department received a

grant of Rs.54.25 lakhs under UGC-DSA scheme for 5 years duration from 2002 – 2007 . Further an amount of Rs 73.5 lakhs is sanctioned by UGC under DSA Phase-II, for the period 2008-2013. Besides this funding from UGC, the individual staff members have been attracting financial support for their research projects from various organizations like DST, DRDO, DAE, NSC-UGC, BRNS etc. During the last two years, DRDO itself has sanctioned more than rupees one-crore for the individual projects in the Department. Recently AFM costing about 45 lakhs is purchased from the grants received from DRDO under individual projects.

The Department developed central facilities like Liquid Nitrogen Plant, UV spectrometer, DSC, X-ray Diffractometer. The Department also received funding for development of central computing facility under DST-FIST programme. Under this programme, an updated computer facility to cater to the needs of the students of Post-graduation, research scholars and teachers has been established. The teachers of the Department actively participated in the academic programmes like National Seminars, Workshops, refresher Courses etc. The Department has provided Internet facility with access to about 30 nodes distributed to all individual staff members and labs. Under the UGC – X Plan grant, an amount of Rs.12 lakhs was sanctioned to strengthen the department facilities. Further an amount of 50 lakhs is sanctioned by UGC during the past two year under the Infrastructure grant. The Department regularly organizes National Seminars/Symposia/Workshops.

Vision

The Vision of the University (and also Department of Physics) is to generate and disseminate knowledge through a harmonious blend of ancient and modern wisdom, and to serve the society by developing in students heightened intellectual, cultural, ethical, and humane sensitivities; to foster a scientific temper, and to promote professional and technological expertise. Central to this vision is a commitment to regional and national development in consonance with our culture, heritage, and environment.

Mission

- To achieve excellence in teaching and research (in Physics)
- To generate, disseminate and preserve knowledge (of Physics)
- To meet the challenges of a complex, and modern society through informed social outreach
- To empower through knowledge and information
- To develop a responsible and productive citizenry
- To develop, enhance, and improve the quality of human resources
- To cultivate resolute moral and ethical values
- To meet contemporary regional and national needs and anticipate future social and economic development (fulfilling the social responsibility)
- To preserve and promote cultural heritage, humanistic and spiritual values

Milestones of the Department:

The Department was one of the earliest Departments in the county to promote research activity in the growth and characterization of single-crystals, ceramics, thin-films, polymers, nanomaterial, bio-materials etc. The research activity taken up by the Department on several aspects of characterization, superconductivity, spectroscopy, high energy physics and X-ray diffraction earned national and international recognition. The Department published over 2000 research papers in seventy different national and international journals, having high impact index which led to the award of more than 600 Ph.D.'s from the Department. Many of the Alumni of our Department have been working as faculty/Scientist in various National, International Labs/Institutes/Universities.

List of Ph.D Degrees awarded with Reference Number under my guidance:

1. Mr Abdul Muhith Ref. No: PHD 10466 (16th January, 2012)
Studies on the performance of Apodised Optical systems with defect of focus under the influence of Primary Spherical Aberration and Astigmatism.
2. Ms. V. Keerthi Ref. No: PHD 29477 (16th April, 2014)
Hyperspectral Image Processing and Analysis.
3. Mr. M. Venkanna Ref. No: PHD 29594 (30th July, 2014)
Studies on the Edge Imaging Characteristics of Aberrated Coherent Optical Systems by Amplitude Filters.
4. Mr. A. NareshkumarReddy Ref. No: PHD 29711 (22nd November, 2014)
Studies on Imaging of Point Object and Composite Image of two object points of asymmetrically apodised optical systems with complex pupil filters.
5. Mr. B. Sambaiah Ref. No: PHD 30019 (27th August, 2015)
Studies on the Super-resolution of Optical Imaging Systems with Amplitude and Phase Filters.
6. Mr. A. Narsaiah Ref. No: PHD 30232 (26th March, 2016)
Studies on the Annular Apodisers for Low sensitivity to Defocus of an Aberrated Optical System.

7. Mr.Kiran Kumar Thota Ref. No: PHD 41037 (04th March, 2017)
Studies on Two-Line Resolution of Aberrated Optical Systems Under Shaping and Shading of the Apertures.
8. Mr. P. Rama Krishna Ref. No: PHD 41651 (30th June, 2018)
Studies on Imaging Characteristics of Aberrated Optical Systems with Non-Uniform Transmission Pupils.

Dr. Y. Kalyanalakshmi

Education: MSc, PhD.

Doctor of Philosophy

Electrical and magnetic behavior of some monovalent doped CMR materials

Research Experience

Colossal magnetoresistance oxides, magnetotransport phenomenon, Thermoelectric power, Ferrites, Ferrite-manganite composites

Postdoctoral Fellow, Department of Physics, Osmania University, Hyderabad

Areas of Teaching Experience

Solid State Physics (General SSP, Advanced SSP, specialization), Classical Mechanics, Statistical Mechanics

Assistant Prof UG papers: Modern Physics

PG papers: Solid State Physics (General SSP, Advanced SSP, specialization), Classical Mechanics, Statistical Mechanics

Asso Prof Solid State Physics (General SSP, Advanced SSP, specialization), Classical Mechanics, Statistical Mechanics

Awards / Grants

- | | | |
|---------------------------|---|---|
| 1. Research Associate | : | CSIR, Govt. of India; 2011-2014. |
| 2. Senior Research Fellow | : | CSIR, Govt. of India; 2008-2010. |
| 3. Junior Research Fellow | : | UGC-RFSMS, Govt. of India; 2007-2008. |
| 4. Young Scientist Award | : | Dr. K. V. Rao Scientific Society Award 2010 |
| 5. Associate Fellow | : | Telangana Academy of Sciences 2018 |

PROFESSIONAL MEMBERSHIPS / ORGANIZATIONS

1. Life member of Magnetic Society of India
2. Life member of Indian Science Congress Association

Dr. HimaBindu Pitta

Education: MSc, PhD., MSc(Psychology)

Doctor of Philosophy

Thesis title :Characterization of sediments in wells of Krishna-Godavari basin applying natural gamma ray spectroscopy methods

Research Experience

Area of research: NUCLEAR RADIATION PHYSICS, MATERIALS SCIENCE

Instrumentation used in conducting their research: WELL LOGGING TOOL (SCHLUMBERGER), SCINTILLATION AND SEMICONDUCTOR DETECTORS, MULTI CHANNEL ANALYSER, XRD, SEM, BALL MILL

Postdoctoral Fellow: DEPARTMENT OF PHYSICS AND ENGINEERING,
UNIVERSITY OF SURREY & TRUEINVIVO LTD, GUILDFORD, SURREY, UNITED KINGDOM
(October 2018 to September 2019)

Areas of Teaching Experience

PG Level:

1. Solid State Physics
2. Nuclear Physics
3. Digital transformation techniques and Information theory
4. Basic electronics
5. Nanomaterials and devices
6. Properties of Nanomaterials
7. Carbon nanotubes
8. Synthesis and characterization of nanomaterials
9. Mathematical Physics
10. Electromagnetic theory
11. C-Programming

UG Level:

1. Optics
2. Electricity and magnetism
3. Thermodynamics
4. Waves and Oscillations
5. Modern Physics
6. Engineering Physics

Awards / Grants

Name of the award Received	International/ National/ State/University/District/College level	Nature of Award	Month & Year of the Award
Felicitation by Red Cross Society India	State level	Society	September 2022
Vice-Chancellor's Research award	University	Scientific	January 2022
Felicitation by Sneha Group of Organisations	International	Society	December 2021
Guru Spandana by SpandanaEda Foundation	International	Society	October 2021
Visiting Academic Researcher	International, University of Surrey	Research	October 2018-2019
Professor of the year	National Level	Proficiency	October 2018
Alliance clubs International	National Level	Society	2018

PROFESSIONAL MEMBERSHIPS / ORGANIZATIONS

- Indian Association of Physics Teachers (Life time) since 2016
- Environment and social development association (ESDA) (Life time) since 2019
- Member WICCI, Telangana Chapter, since July 2022
- Life Member IRPS, India since September 2022, LM-1242

Dr. D. Sreenivasu

Education: MSc, PhD. PGDCA

Doctor of Philosophy

Thesis title: Studies on spectroscopic and transport properties of bismuthate and borobismuthate glasses

Instrumentation used in conducting research: XRD, XPS, SEM-EDAX, FTIR, Raman, Impedance analyzer, ESR, DSC

Number of PhD's awarded: 01

PhD's submitted: 01

Areas of Teaching Experience:

List of Subjects: Electronics, Microwaves, Mobile communications, EM theory, Classical Mechanics, Transmission lines and wave guides, Solid state physics, Fiber optics, Data communication network

Assistant Prof : Sep 2013-Sep 2023

PROFESSIONAL MEMBERSHIPS: Materials Research Society of India, Neutron Scattering Society of India, Physics Teachers Association

Publications: <https://scholar.google.com/citations?user=VDI-g44AAAAJ&hl=en>

Dr. D. Aparna

Education: MSc, PhD.

Doctor of Philosophy

“Pattern Recognition of Acoustic Emission Signals from Piezoelectric Ceramics”

Research Experience

Acoustic Emission Studies, Signal Processing, DC and AC Fatigue studies.
Insitu Monitoring of Acoustic Emission Signals from PZT ceramics.

Areas of Teaching Experience

Subjects Taught: Classical Mechanics, General Solid State Physics, Microcontrollers and Applications, Guided and Unguided media Communication.

Assistant Prof: 2009 till date

Awards /Grants

- Apart from teaching she has been a member on selection committee for lecturers, student projects & posters during Science exhibitions at College Level, District Level and at 30th National Children Science Congress 2022.
- BOS member for Physics and Electronics at UG and PG level.
- As Resource person delivered talks on few topics of electronics, MATLAB and NDT - technique ie Acoustic Emission.

Dr.MadhuriDumpala

EDUCATION: M.Sc., Ph.D.,

Doctor of Philosophy:

Thesis title: A study of Gamma ray interactions in clay bricks in the region 511 to 1333keV

RESEARCH EXPERIENCE:

Area of research: The design and development of eco-friendly, biodegradable functional materials suitable for different applications, such as packing materials for food and medical applications, energy harvesting, and radiation shielding.

Instrumentation used in conducting our research: Gamma Ray Spectrometer, and multi-channel analyzer, FTIR, UV-Vis, TGA, UTM and Ultra-Centrifuges.

AREAS OF TEACHING EXPERIENCE:

LIST OF SUBJECTS:

General physics, Mathematical physics, Classical mechanics, Electromagnetic theory, and materials science.

PROFESSIONAL MEMBERSHIPS / ORGANIZATIONS

• The Indian Science Congress Associations • Indian Association of Physics Teachers (IAPT) • Indian Association of Radiation Protection. • Indian Society for Radiation Physics.

Dr. K. Kirana

Education: MSc, M.Phil. PhD.

Doctor of Philosophy

Thesis title: Synthesis, Characterization and Optimization of Multi-functionality of Ferroelectric Perovskite Composite Materials

Research Experience

Magnetic and multiferroic materials

Areas of Teaching Experience

Subjects Taught: Quantum mechanics, Solid State Physics, Mathematical Physics, Advanced Solid State Physics, Modern Optics,

PROFESSIONAL MEMBERSHIPS / ORGANIZATIONS
