

Dr A.K.D. Bhavani, M. Sc., Ph.D.
Associate Professor

Department of Chemistry, Osmania

University, Hyderabad-500 007, India

Email: akdbhavanio@yahoo.com

Dr A.K.D. Bhavani has 25 years of teaching and 16 years of research experience. Her interesting research area is synthesis of bioactive nitrogen heterocycles and their biological evaluation methodology for novel azaheterocycles. Published 14 research papers in International, National Journals and guiding 10 research students who are pursuing for Ph.D. Degree. One student was awarded the Ph.D. Degree and another student submitted the thesis for Ph.D. degree. Her administrative experience includes as warden, OU women Hostel for one year, as Incharge Head at Department of Chemistry, UCS, OU, Saifabad for two years and she was the member or coordinator in B.Sc. admission committee at UCS, Saifabad and member of BoS at UG and PG level in Osmania University. She was the co-author in the books - question bank I & II for Intermediate, Telugu Academy, Govt. of A.P. and also for Advanced in Heterocyclic Chemistry Book.
