

Dr. Ch. Abraham Lincoln, M.Sc., Ph.D.

Professor

Email: chal_lincoln@yahoo.com

Dr.Ch.Abraham Lincoln has 34 years of teaching experience. His Area of specialization is bioinorganic chemistry. His research work is on Mixed nucleoside complexes of bivalent metal ions in solution. He has been teaching for both under graduate and post graduate students at University College of science saifabad. He worked as Head of the department at UCSS, and organized national conferences. At present he is teaching for post graduates and guiding research scholars. His area of interest in teaching are coordination equilibria Bio-coordination chemistry, Reaction mechanism of transition Metal complexes, Metal clusters, Metal complexes in clinical chemistry and Green chemistry.He is nominated as university representative in the governing body and selection committees for different private Degree colleges. He is also subject expert in the interview board for different govt Examination. He has published many papers in reputed journals and has attended conferences at national level. The present ongoing research work is on synthesis, characterization of metal complexes and nanotechnology.
